Abstract

Entrepreneurship, which has been mentioned in recent years and is considered as the driving force of economic and social development, has an important place in the development of the country. Entrepreneurship is highly functional in the change and development processes of society, in accelerating economic growth, in the emergence of new industries. For this purpose, entrepreneurship is supported all over the world and entrepreneurship classes are given in universities.

In this study, entrepreneurship spirits and talents of students studying at Inonu University Malatya Vocational School were examined. As a result of the research, the abilities to be entrepreneur and thoughts on entrepreneurship of students who are studying at Malatya Vocational School have been determined.

The opinions of the students on entrepreneurship who were selected as the sample and are studying at Inonu University Malatya Vocational School achieved by answering the questionnaire prepared. According to the results of questionnaire, the entrepreneurship tendencies of the students were determined.

Keywords: Entrepreneurship, vocational school, student.
