### **Abstract**

This study, it is aimed to determine the subjects which inspectors observed in primary school problems they determined and solutions and offers they proposed. For this aim the opinion and suggestion chapters of inspection reports after 26 inspections which a primary school had between 1989 and 2013 years in different times are examined as using the method of data acquisition. After this examinations the inspections which inspectors made in those institutions, they determined problems in those subjects, respectively, good and running hand writings, annual and daily plans, needed notebooks, are observed. Consequently a computation could not be formed in an institution inspection is understood.

**Keywords:** Institution Inspections, Inspector, Problems And Solutions.
