Abstract

In this study, it was aimed to examine developments and contributions of Turkey Guitar Meetings in the field of guitar in Turkey. For this purpose, the effects of masterclass, concert, contest, panels and seminars in young guitarists in our country were investigated. The aim of the ongoing meetings starting from 2007 is to contribute to the development of guitarists in our country and prepare the ground for the next year's meeting. This research is a descriptive study. Document analysis and literature search were conducted in the research. As a result of the research, it was determined that the events hosted by Turkey Guitar Meetings include international and national guitarists. At the same time, it was understood that it was possible to perform concerts with new generation guitarists, and the seminars made it possible to get interested in the guitar field.
