Abstract

Globalization, frequently hearing this concept in recent years, it has been key word of recent years and especially since 1980's, not only it has been on our county's agenda but also heaps of countries. People who live on the earth have to keep in step with this fast development and change. Globalization, from economic way, passing to free market economy, from mobility way, taking part in fast technological development, new systems and regulations brought by fast integrations in world diplomacy, globalization is inevitably effected Geography education in Turkey. In this study, the influence of globalization on Geography education is examined in detail and in conclusion there are recommendations given.

Keywords: Globalization, Geography, Education, Modernism, Knowledge
